August 2010 Passenger Airline Employment Down 1.7 Percent from August 2009

U.S. scheduled passenger airlines employed 1.7 percent fewer workers in August 2010 than in August 2009, the U.S. Department of Transportation's Bureau of Transportation Statistics (BTS) reported today. This is the 26th consecutive decrease in full-time equivalent employee (FTE) levels for the scheduled passenger carriers from the same month of the previous year (Tables 1, 2). FTE calculations count two part-time employees as one full-time employee.

BTS, a part of the Research and Innovative Technology Administration, reported that the August FTE total of 377,835 for the scheduled passenger carriers was 6,469 below that of August 2009 (Table 3). [Historic employment data](#) can be found on the BTS web site.

Five network airlines decreased employment from August 2009 to August 2010. The sixth network carrier, Delta Air Lines, after completing its merger with Northwest Airlines, is reporting combined employment numbers in 2010 and reported 6.2 percent more FTEs in August 2010 than the combined totals of both carriers for August 2009 (Table 9). Network airlines operate a significant portion of their flights using at least one hub where connections are made for flights to down-line destinations or spoke cities.

AirTran Airways was the only low-cost carrier to report a decrease in employees from August 2009. Six low-cost carriers reported an increase in employment (Table 12). Regional carriers Comair, Horizon Air, Mesa Airlines, Air Wisconsin Airlines, Mesaba Airlines, Shuttle America Airlines, and Lynx Airlines also reported reduced employment levels compared to last year (Table 15).

Scheduled passenger airline categories include network, low-cost, regional and other airlines.

The six network airlines employed 256,122 FTEs in August, 67.8 percent of the passenger airline total, while seven low-cost carriers employed 16.9 percent and 18 regional carriers employed 13.8 percent (Table 4).

AIRLINE EMPLOYMENT PRESS RELEASE

ADD ONE

Delta employed the most FTEs in August among the network airlines, Southwest Airlines employed the most FTEs among low-cost airlines, and American Eagle Airlines employed the most FTEs among regional airlines. Six of the top 10 employers in the industry are network airlines (Table 6).

Beginning with October 2007 data, US Airways' numbers are combined with numbers for America West Airlines in the network category. For previous months, America West's numbers were included with the low-cost airlines.

Network Airlines

FTEs at the group of six network airlines decreased 0.9 percent in August 2010 compared to August 2009, the 24th consecutive monthly decrease from the same month of the previous year (Table 7). The network airlines employed 2,447 fewer FTEs in August 2010 than in August 2009 (Table 8). Delta and Northwest reported separately in August 2009 while their reports were combined in August 2010.

Within the group, all network carriers except Delta decreased FTEs from August 2009 to August 2010: United Airlines, 4.4 percent; US Airways, 4.0 percent; Continental Airlines, 3.7 percent; American Airlines, 3.1 percent; and Alaska Airlines, 2.9 percent. Delta increased FTEs by 6.2 percent compared to total Delta and Northwest FTEs for August 2009 (Table 9).

The network airlines employed 8,641 fewer FTEs in August 2010 than in 2006 even though America West's numbers were not combined with US Airways in the network category until October 2007 (Table 8).

The biggest percentage decline in FTE employment from 2006 to 2010 was at United, down 17.9 percent, a reduction of 9,533 FTEs, followed by American, down 10.4 percent. August 2010 numbers for Delta and US Airways are not comparable to 2006 because of the intervening mergers (Table 9).

Low-Cost Airlines

Low-cost airline FTEs were up 2.0 percent in August 2010 from August 2009 (Tables 10, 11).

Six low-cost airlines reported year-to-year increases: Virgin America Airlines, 12.7 percent; Frontier Airlines 11.8 percent; Spirit Airlines, 8.7 percent; Allegiant Air, 8.4 percent; JetBlue Airways, 2.1 percent; and Southwest, 0.3 percent. AirTran reported a year-to-year FTE decrease (Table 12).

The six low-cost carriers reporting employment data in both 2006 and 2010 employed 11.0 percent more FTEs in August 2010 than in August 2006. Allegiant reported the largest percentage increase, up 106.9 percent (Table 12).

- more -

AIRLINE EMPLOYMENT PRESS RELEASE ADD TWO

Low-cost airlines are those that the industry recognizes as operating under a low-cost business model, with lower infrastructure and aircraft operating costs.

Regional Airlines

Regional airline FTEs were down 7.2 percent in August 2010 compared to August 2009, the 24th consecutive month with a decline from the same month of the previous year (Table 13).

Comair, down 52.0 percent, and Lynx, down 46.6 percent, reported the largest decreases in the regional group. Republic Airlines, up 23.8 percent; and Compass Airlines, up 14.5 percent, reported the largest increases in the group (Table 15).

Regional carrier FTEs declined 8.8 percent from August 2006 to August 2010 (Table 14).

The 15 regional carriers reporting employment data in both 2006 and 2010 employed 11.4 percent fewer FTEs in 2010 than in 2006. Comair reported the largest percentage decline, down 57.5 percent, followed by Mesa, down 39.3 percent, and Atlantic Southeast Airlines, down 35.1 percent (Table 15).

Republic reported the biggest four-year gain, 239.2 percent, followed by GoJet at 70.2 percent (Table 15). Effective with October 2009 reporting, Republic's employment numbers include FTE's from Midwest Airlines. Midwest employment data were formerly included in the "Other Airlines" category.

Regional carriers typically provide service from small cities, using primarily regional jets to support the network carriers' hub and spoke systems.

Reporting Notes

Airlines that operate at least one aircraft with the capacity to carry combined passengers, cargo and fuel of 18,000 pounds – the payload factor – must report monthly employment statistics.

The Other Carrier category generally reflects those airlines that operate within specific niche markets, such as Continental Micronesia in the Southwest Pacific and Hawaiian Airlines serving the Hawaiian Islands.

Data are compiled from monthly reports filed with BTS by commercial air carriers as of Oct. 12. Additional airline employment data can be found on the BTS website at http://www.bts.gov/programs/airline_information/number_of_employees/. BTS has scheduled release of September passenger airline employment data for Nov. 10.

* Full-time Equivalent Employee (FTE) calculations count two part-time employees as one full-time employee.

** The Percent Change 2006-2010 is based on the six carriers reporting in both years.

*** Virgin America and SkyBus began reporting employment data in August 2007. SkyBus stopped reporting employment data effective in April 2008 resulting from its bankruptcy filing.

**** ATA Airlines ceased operating on April 3, 2008 and stopped reporting employment data effective in March.

***** Beginning with October 2007, US Airways' numbers are combined with America West Airlines' numbers in the network category. For US Airways previous year numbers and for the combined number in the network category, see Table 9.

N/A: Carrier did not meet the standard for filing, was no longer operating, merged with another operating carrier or failed to file. See previous notes.

Note: Percent changes based on numbers prior to rounding.

Note: Detail may not add to total due to rounding.

* Full-time Equivalent Employee (FTE) calculations count two part-time employees as one full-time employee.

** The Percent Change 2006-2010 is based on the 12 carriers reporting in both years.

*** Effective with October 2009 reporting, Republic Airlines' employment numbers include FTE's from Midwest Airlines. Midwest employment data were formerly included in the "Other Airlines" category.

**** Effective with April 2008 reporting, Trans States Airlines no longer met the reporting requirements for filing monthly airline employment data.

N/A: Not applicable because carriers did not meet the standard for filing.

Note: Detail may not add to total due to rounding.
