## BTS Data

---

DOT 194-10

### **Airline On-Time Reporting Directive for 2011**

Friday, November 5, 2010 - The U.S. Department of Transportation's Bureau of Transportation Statistics (BTS) today issued the annual directive detailing the requirements for the reporting of airline on-time data for 2011. The directive includes the list of 29 airports with 1 percent of the nation's total domestic scheduled-service passenger enplanements for the 12-month period ended March 31, 2010 for which monthly on-time reports are required. Although all reporting airlines voluntarily report on all domestic airports they serve, these 29 airports are listed in the detailed airport tables of the Department's Air Travel Consumer Report and on BTS' major airport on-time rankings.

For 2011, BTS will receive reports from 16 airlines, 15 that are required to report and one, ExpressJet Airlines, that will report voluntarily. Comair will no longer be required to report and Pinnacle Airlines will cease reporting voluntarily. Airlines with revenue of more than 1 percent of scheduled-service domestic passenger revenue for the 12 months ended March 31, 2010 are required to report. For the complete list of carriers required to report data in 2011 and the airports for which reports are required, see [http://www.bts.gov/programs/airline\\_information/accounting\\_and\\_reporting\\_directives/technical\\_directive.html](http://www.bts.gov/programs/airline_information/accounting_and_reporting_directives/technical_directive.html) Contact: Dave Smallen: 202-366-5568.
