Intermodal Freight Facilities and their Connections

Wednesday, August 28th, 2013

1:30pm–2:30pm (Eastern Time)

Conference Center - Room 2

Presented by Olu Ajayi—Where are our freight transportation facilities located and how well are they connected? Upon the successful completion of an Intermodal Passenger Connectivity Database, the Bureau of Transportation Statistics (BTS) is now working to develop and maintain a database that provides information on the location and connectivity of freight transportation facilities and services. During this webinar, Olu Ajayi of BTS’s Office of Transportation Analysis (OTA) will provide an overview of this new effort and some insight into the approach and challenges, while providing a preview of the information that has been compiled so far.

To participate in the webinars, please visit: <http://fhwa.adobeconnect.com/actsmeeting/> and click on “Enter as Guest,” type your name, and enter the room. A 1-800 number will be provided on the website. Please make requests for special accommodations at least 3 days in advance. Webinar is closed captioned. For more information, contact RITAInfo@dot.gov or 1-800-853-1351.
