May 2009 Passenger Airline Employment Down 6.8 Percent from May 2008

U.S. scheduled passenger airlines employed 6.8 percent fewer workers in May 2009 than in May 2008, the 11th consecutive decrease in full-time equivalent employee (FTE) levels for the scheduled passenger carriers from the same month of the previous year, the U.S. Department of Transportation's Bureau of Transportation Statistics (BTS) reported today (Table 1). FTE calculations count two part-time employees as one full-time employee.

All the network airlines decreased employment from May 2008 to May 2009 (Table 9) as did low-cost carriers AirTran Airways, Spirit Airlines and Frontier Airlines (Table 12). Regional carriers American Eagle Airlines, SkyWest Airlines, ExpressJet Airlines, Comair, Atlantic Southeast Airlines, Pinnacle Airlines, Horizon Air, Mesa Airlines, Air Wisconsin Airlines, Republic Airlines, Colgan Airlines and PSA Airlines also reported reduced employment levels compared to last year (Table 15).

Scheduled passenger airline categories include network, low-cost, regional and other airlines.

The seven network carriers employed 260,500 FTEs in May, 67.2 percent of the passenger airline total, while low-cost carriers employed 16.4 percent and regional carriers employed 14.6 percent (Table 4).

American Airlines employed the most FTEs in May among the network carriers, Southwest Airlines employed the most FTEs among low-cost carriers, and American Eagle employed the most FTEs among regional carriers. Seven of the top 10 employers in the industry are network carriers (Table 6).

America West Airlines and US Airways now operate under a single certificate. Joint reporting began with October 2007 data. Before October 2007, US Airways' employment numbers were included with the network airlines, while America West's numbers were included with the low-cost airlines. Beginning with October 2007 data, US Airways' numbers are combined with America West's numbers in the network airlines category.

AIRLINE EMPLOYMENT PRESS RELEASE

ADD ONE

Network Airlines

FTEs at the group of seven network carriers decreased 8.2 percent in May 2009 compared to May 2008, the ninth monthly decrease from the same month of the previous year after 16 consecutive months of year-over-year growth. Prior to an increase in May 2007, the network group had reduced FTEs from the previous year every month since September 2001 (Table 7).

Within the group, all network carriers decreased FTEs from May 2008 to May 2009: Northwest Airlines, 14.7 percent; United Airlines, 12.6 percent; Delta Air Lines, 6.9 percent; American, 6.6 percent; Alaska Airlines, 6.2 percent; US Airways, 5.8 percent; and Continental Airlines, 4.1 percent (Table 9).

FTEs at four network carriers declined during the four years from May 2005 to May 2009. The biggest percentage decline was at Northwest, down 33.4 percent, a reduction of 12,600 FTEs, followed by United at 17.4 percent. The other FTE decreases during that time were Delta, down 14.5 percent, and American, down 10.1 percent. The increases were at Continental, 8.0 percent; Alaska, 6.3 percent; and the recently combined US Airways, 41.2 percent (Table 9).

Network carriers operate a significant portion of their flights using at least one hub where connections are made for flights to down-line destinations or spoke cities.

Low-Cost Airlines

Low-cost carrier FTEs increased 1.2 percent in May from May 2008. This was the third month over month employment increase since the America West and US Airways reports were combined in October 2007 following five consecutive monthly decreases. Low-cost carrier FTEs had decreased each month for 12 consecutive months through September compared to the same month of the previous year, but the previous year numbers included America West while the recent data did not (Tables 10, 11).

Four low-cost carriers reported year-to-year increases: Virgin America, 26.7 percent; Allegiant Airlines, 12.4 percent; Southwest, 4.4 percent; and JetBlue Airways, 1.5 percent. AirTran, Spirit and Frontier reported year-to-year FTE decreases (Table 12).

Low-cost carriers are those that the industry recognizes as operating under a low-cost business model, with lower infrastructure and aircraft operating costs.

- more -

AIRLINE EMPLOYMENT PRESS RELEASE ADD TWO

Regional Airlines

Regional carrier FTEs were down 7.7 percent in May 2009 compared to May 2008, the ninth consecutive month with a decline from the same month of the previous year (Table 13).

ExpressJet, down 26.8 percent, and Horizon, down 13.7 percent, reported the largest decreases in the regional group. Compass Airlines, up 49.7 percent, and GoJet Airlines, up 35.6 percent, reported the largest increases in the group (Table 15).

Regional carrier FTEs declined 0.4 percent from May 2005 to May 2009 (Table 14).

The 12 regional carriers reporting employment data in both 2005 and 2009 employed 8.2 percent fewer FTEs in May 2009 than in May 2005. PSA reported the largest percentage decline, down 42.1 percent, followed by Atlantic Southeast, down 28.4 percent, and Air Wisconsin, down 25.3 percent. American Eagle, ExpressJet, Comair, Horizon, Mesa and Executive Airlines also reported fewer FTEs in May 2009 than May 2005 (Table 15).

Mesaba Airlines reported the biggest four-year gain, 20.1 percent, followed by Pinnacle Airlines at 14.0 percent and SkyWest at 13.1 percent (Table 15).

Regional carriers typically provide service from small cities, using primarily regional jets to support the network carriers' hub and spoke systems.

Reporting Notes

Airlines that operate at least one aircraft with the capacity to carry combined passengers, cargo and fuel of 18,000 pounds – the payload factor – must report monthly employment statistics.

The Other Carrier category generally reflects those airlines that operate within specific niche markets, such as Continental Micronesia and Hawaiian Airlines serving the Hawaiian Islands.

Data are compiled from monthly reports filed with BTS by commercial air carriers as of July 10. Additional airline employment data can be found on the BTS website at http://www.bts.gov/programs/airline_information/number_of_employees/. BTS has scheduled release of June airline employment data for Aug. 18.
